VOTE TO RETAIN TIGHE & BOND

Selectmen met with Tighe & Bond engi-
neer Ron Michalski to continue Phase III
work on the Mattapoissett sewer system.
Chairman R. William Blasdale signed the
completed Step II application for the State
and Federal Grants. The next step will be
preparation of the specifications for bid,
awarding the construction contract and start-
ing the construction phase of the program
for the system approved for the village.
Michalski said that it is vital that a resident

wise every construction phase so that no work be put into the ground that does not adhere to the plans exactly. He said that an assistant will be needed, also an engineer who might be local if a man with suitable qualifications can be hired here. Michalski said that Harvard University has notified his firm that they will begin the archaeological survey of the route of the connector pipe along the railroad roadbed shortly. They will have to obtain a permit from State authorities and have been given au-

thorization to proceed after that. Michalski said the boring contractor will begin boring work at once.

TOWN INCOME AVERAGE

The 1975 Median and Mean Family Income report on state communities of over 2500 population shows Mattapoisett's average income of \$11,647 is nearly the same as the United States average of \$11,800. The Executive Secretary of Acushnet Mr. Portway sent this information.

People who bank with us come from all over, not just Fairhaven. Westport, Dartmouth, Acushnet, New Bedford. Marion, Mattapoisett, Rochester and Wareham. Even as far away as the Cape and Rhode Island. It's our guess (that) they've discovered we're really not so far away when it comes to sound money management.

The next time you need money for business or personal use, or would like to put your extra dollars to work profitably, give our banking professionals a try. We're very good at listening to money problems and a lot closer to home than you might think.

COMPLAINT

Children's Plays, May 5

Girl Scout Troop 29 of Mattapoisett will be presenting two children's plays entitled "The Tortoise, the Hare and Friends", and "The Selfish Giant". Both plays are directed by Miss Pat Sylvia.

The Tortoise, the Hare and Friends is quite funny, and as you might say it's "a new twist to an old tale", while The Selfish Giant teaches a lesson to an audience young and old. The public is welcome to come.

The two plays will be presented Thursday, May 5th, at 7:30 P.M. in the Center School auditorium.

Exceptional Service

Editorial, D.C.J.

Mattapoisett citizens mourn the death of Joseph D. Travis, 49, of 5 Massasoit Way on Friday, April 22. Mr. Travis lived in this community for the past 11 years doing business here as Travis Real Estate. His public service to the town has been invaluable. Mr. Travis has served on the Mattapoisett Finance Committee for 7 years and was serving as its chairman until just before the Town Meeting when he resigned because of failing health. The long hours of investigation and decision of this committee in the months before Town Meeting is arduous, unselfish public service of the finest kind. To continue to serve the people of the town in this capacity while so very ill took courage that is an inspiration for us all. Joseph Travis was a man with wit, intelligence and a great and generous spirit. He leaves a legacy of service to our future that will continue. We will remember him for many admirable qualities and for his indomitable strength of character.

Save Energy -

PULL THE PLUG YOU ALL!
Editorial - D.C.J.

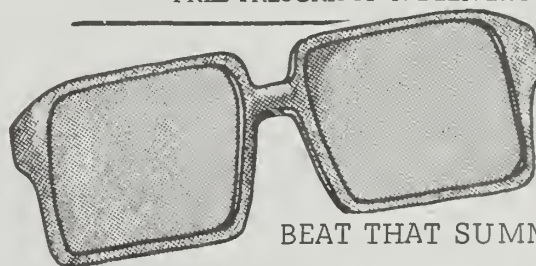

It is heartening that finally the government on the federal level has seen fit to recognize that our energy needs are outstripping and exhausting our supply. President Carter has performed a valuable service in his recognition of the obvious.

It is disheartening that President Carter has turned to the proven method of his Democratic party to tackle the solution. He intends to tax the daylights out of the users of energy to make it too expensive to use. In order to do this he asks dictatorial power over a 10-year period. In looking back historically - the federal income tax was bitterly fought when first proposed. The opponents of the income tax foresaw the very progression that has already taken place. They said that the federal government in controlling the wages of the people would, in time, control the people. This has happened. As the demands of the leftist liberals continue to mount, more and more of the wageearners' pay is confis-

off the economy of the country. Both parties are guilty of the practice of using taxes as a lever to control the people. The potential grows ever stronger for complete and final control.

If President Carter is right he will save energy through economically pricing it out of reach. At what cost? Our nation is so geared to mobility that no one is brilliant enough to predict the outcome. The solution of our problem may well be lost in the disaster that could result in this shortsighted, jury rigged policy. A strong economy such as we have presently might be the best base to generate a mass produced new method of energy. Instead of hitting the brakes, perhaps the best policy would be to use the momentum of our industry to turn in a new direction. In that way we could continue a standard of living rather than dismembering it.

The good news is President Jimmy Carter's recognition of the fact. The bad news is the swift move to use taxes as a weapon against the people. One of these days, we would appreciate the recognition by government that the majority of people are responsible, self-supporting, mentally capable adults worthy of trust and confidence. The government is supposed to be ours - "We the people" is the way it went.

'6Rms. Riv. Vu.'

Karen Chase and Jim Bruce delighted local play lovers in the opening performance of 6 Rms Riv Vu to be continued this week April 28, 29 and 30 at the Marion Art Center. This couple, as a marooned modern day Adam and Eve, find rent-controlled paradise facing a red brick wall as they do very well by playwright Bob Randall's light comedy. The kindling of the spark between man and woman is well done in this unlikely setting and the laughs and chuckles are many and deserved in this live theater presentation. Chris Gaucher, Rene Fernandes, Mary-Alice Sylvia and Paul Hebert complete the excellent cast, expertly directed by Nancylee S. Gaucher.

Deserving of special notice is the program cover drawn by artist Jan Adkins whose delightful woodworking, sand building, etc. books have been so popular. Adkins' style is unmistakable and well printed by the ORRHS print shop.

Also a treat is the intermission show of photography by Deborah Hynes and exhibition of woodworking by Peter Richmond.

Pops '77 Tickets

Popping up as surprisingly and beautifully as flowers along the roadside, tickets for the Tri-County Music Association's "better-than-ever" POPS concert go on sale Saturday, May 7. They will be sold at the Mattapoisett Bowling Alley, next to Cathay Temple, Route 6, Mattapoisett, from 9:30 A.M. to 12:30 P.M. and, if there are any left, they will be sold at the same time and place the following Saturday, May 14.

John Pandolfi and the 46-piece Regional Symphonic Band are rehearsing new music for the concert to be held June 11 at Tabor Academy's Hoyt Hall on the Marion waterfront. A jazz combo and a trumpet trio will be featured, and the whole atmosphere will be one of a huge spontaneous party to start off the summer to launch the busy summer season.

Seats will be assigned when the tickets are purchased. No advance reservations will be taken and no tickets will be reserved over the phone. Ticket buyers are asked to pay for their tickets when they buy them.

Ticket chairman Mrs. David Titus of Marion

explains that tickets will be sold for 55 tables with a maximum of 12 people at a table.

Association president Charles W. Ganzel, Jr. said proceeds from the event will be applied to the organization's music scholarship fund which has helped over 25 students continue their study of music at the college level.

A huge committee is making preparations to make POPS '77 the best one of all.

In Appreciation

A THANK YOU

On April 8, 1977, at 8:10 A.M., I was involved in an auto accident. I would like to express my deep gratitude and appreciation for the efficient and professional manner in which the Mattapoissett Police Department and Mattapoissett Fire Department conducted themselves. Their compassion for an injured person, and the expediency in which they transported me to St. Luke's Hospital helped to make my injury less crucial. They are an unbeatable team and we in Mattapoissett are very fortunate to have such trained men, who are capable of handling such emergencies. Once again, I wish to express my deepest thanks to these fine men. I would also like to thank our many friends and neighbors for their concerns throughout my convalescence with cards and calls.

ners are:

The high king-Lloyd Alexander. This is the last in a series of fantasy books about the land of Prydain.

Sounder-William Armstrong. The story of a coon dog and his devotion to his master.

Julie of the wolves-Jean C. George. Lost in the Alaskan wilderness, an Eskimo girl is finally adopted by the pack of wolves she comes to love.

The grey king-Susan Cooper. Will Stanton discovers that he is the last-born of the Old Ones, servants of the light, dedicated to saving the world from the dominion of the Dark forces.

This year's Newbury award winner is Roll of thunder, hear my cry by Mildred Taylor. It is the story of a black girl and her family, set in Mississippi during the height of the Depression.

There are also two Newbury Honor Books this year. Abel's Island by William Steig tells the story of a mouse swept away from his comfortable home to an uninhabited island. PTC Spring Fair

Have you checked your attic, garage, Fibber McGee closet, etc. for items for our P.T.C. Spring Fair white elephant sale? Remember, something that you no longer use might be just what someone else is looking for. More importantly, it may also represent a profit for our schools. Just drop off items you wish to donate at the van behind Center School any time during school hours or, if there is a question, contact Sue Hottel (758-4417).

Also, if you are planning to help our plant table committee, cuttings from your favorite plants should be made now for the Fair to be held on Saturday, May 21st. For further information, please contact Peggy Villela (758-4242).

Just a reminder to committee chairmen, please contact all of your volunteers - they offered to help and we need them.

Let's get "things a buzzin'" and make this the best P.T.C. Spring Fair ever!

shop harmony is America's oldest song style with roots traceable back to 1843 when the Virginia Minstrels stepped before the footlights to offer songs of the day "in close harmony". Today the song form is vibrantly alive with more than 38,000 men in 750 chapters in this country and Canada devoting part of each week to singing songs both old and new in barbership harmony.

Work on the tribute to Irving Berlin began more than two years ago. At the Society's annual Harmony College, a week-long symposium on barbershop music held in St. Joseph, Mo., the arrangements were first tested and performed so that local chapters like ours might stage performances.

Irving Berlin himself approved the arrangements for the S.P.E.B.S.Q.S.A.'s "Mr. Music" tribute.

The two-part program includes songs that reflect Berlin's vision of the many moods of the American people--human dignity in the face of suffering in "Give Me Your Tired, Your Poor" and pride in national heritage in "Alexander's Ragtime Band".

Other Berlin songs in the program were inspired by a series of diverse sources. A newspaper story of a poor man who left a

TABOR MUSICIANS VAULT TO GOTHIC SPLENDOR

Not far in Fairhaven is an architectural wonder known as a "New England Cathed-

ral". The Unitarian Memorial Church is one of the finest examples of Gothic design in America. Flying buttresses, leaning gargoyles, Tiffany windows, marble floors, and English oak pews combine in a mystic manner to form an impression of timeless beauty.

Here it is that the Tabor Chorus, Trumpet Trio and Bell Choir will perform on Sunday, May 8th, at 10:30 A.M. It is indeed a privilege to be invited to perform in such an historical structure. The acoustics are perfect for the majesty of voices, organ and brass blending and bending their way past pointed arches toward lofty gilded angels astride the hammer-beam ceiling.

Tabor musicians will conduct the entire service with prayers and poetry from ancient to modern sources. The significance of this performance is the congenial combination of music, poetry, and architecture in one remarkable aesthetic experience.

Musical selections for the service will include works by Gabrielli, Bach, Moussorgsky and Vaughan Williams. A triumphant note will open the service while three trumpeters: Stephen Zolper, Joseph Sapelli, and Brooks King, sound the opening theme of the "Promenade" from Pictures at an Exhibition high up in a musicians' gallery toward the rear of

Mr. Graviel stated "that during 1976 there were 1398 boys and 300 adults involved at the 4 council conservation weekends and 4 one day ecology workshops. The number of man hours exceeds 7000", mentioned Graviel.

Mr. Ronald Titus, scout executive of the Moby Dick Council, explained "that the groups not only performed the work but also supplied all the materials to do the work. It is impossible to put a dollar value on the work or materials supplied by the scouts. The green seal citation belongs to the scouts and their leaders. Without their work and support the Moby Dick Council would never have qualified for this award."

Conservation projects completed by the scouts were done at Camp Cachalot located in South Carver, and Camp Noquochoke located in Westport. These properties are the

two Moby Dick Council camps. The projects completed range from planting of trees, shrubs and flowers to the building of retaining walls for erosion control, and building of boat bridges over streams. These projects have all helped to make the scout camps a better place for boys to spend either a weekend or week camping.

Receipt of this coveted recognition does not mean an end to the council's conservation program. On the contrary the program has been in existence for the past 5 years and continues to grow each year.
